Integration of ITM Oxygen with Coal Gasification, Fischer-Tropsch Synthesis Liquid Fuels Production

12-Sep-2003

IPCOM000019435D

English (United States)

Oxygen can be recovered from air at high temperatures by passing hot, oxygen-containing gas, preferably air, over non-porous, solid electrolyte ceramic membranes. These membranes, known in the art generically as ion transport membranes (ITMs), utilize an electrochemical ...

Composite ITM Materials for the Direct Conversion of Methane to Syngas

12-Sep-2003

IPCOM000019433D

English (United States)

Synthesis gas, a mixture of hydrogen and carbon monoxide, can be produced by oxidatively-reforming a hydrocarbon-containing stream which passes on one side of a non-porous, mixed conducting ceramic membrane, with oxygen from a hot, oxygen-containing gas, preferably air, ...

Production of Nitrogen or Inert Gas from ITM Oxygen Generator Residue Gas

12-Sep-2003

IPCOM000019425D

English (United States)

Oxygen can be recovered from air at high temperatures by passing hot, oxygen-containing gas, preferably air, over non-porous, mixed conducting ceramic membranes. These membranes, known in the art generically as ion transport membranes (ITMs), utilize an oxygen partial ...

Integration of ITM Oxygen Generator with Syngas Production

12-Sep-2003

IPCOM000019422D

English (United States)

Oxygen can be recovered from air at high temperatures by passing hot, compressed, oxygen-containing gas, preferably air, over non-porous, mixed-conducting ceramic membranes. These membranes, known in the art generically as ion transport membranes (ITM), utilize an oxygen ...

Result # 5 Relevance:

Integration of ITM Oxygen with a
